## CHRISTINE CARRIER ARTS DEBUTS IN FINE ARTS WORLD

New York City Based Art World Concierge Management Company Launches

**August 20, 2015 - New York, NY** We are pleased to announce the formation of Christine Carrier Arts, an art world concierge management company.

Combining her success as a producer of international art fairs in Miami and New York City over the past five years, with her expertise in the luxury industry, Christine Carrier created Christine Carrier Arts to provide her clients with strategic positioning in the luxury and fine art world market place- be that a booth at an art fair in Miami, a pop-up show in NYC or a collaboration with an avant-garde fashion designer for a signature lifestyle piece.

Connections are the pulse and rhythm of New York City and this is what Christine Carrier Arts offers across the fine art, luxury and fashion worlds.

With roots also in the fashion world from her time at Women's Wear Daily (WWD), Christine Carrier Arts has a unique vantage point and identifies opportunities and partnerships where others never see a possibility.

Christine Carrier Arts offers its clients the connections and resources acquired over three decades in the international fine arts world.
