CHRISTINE CARRIER ARTS ANNOUNCES THE POP UP PROJECT

July 27th, 2016 New York, NY - Christine Carrier Arts is pleased to invite you to collaborate for a Pop Up space in New York City and/or Miami - each art capitals in their own right. Please consider spending a month in either city and let us create your own personal space in one of our various locations rather than merely spending five days in the hub of the art world for the Fair seasons. Prolonging your visit to one or both of these cities allows you to maximize your time and extend your client base. New York and Miami are constantly changing, evolving and transforming. They are pulsing with new energy every day. Now is your chance to test the waters and dip your toes in by working with us and generating your personalized Pop Up gallery. Pop ups provide you the opportunity to test a new market without committing significant time and resources. It allows you to see if it is time and if you are ready to expand your market. In New York City, we have various locations from 100 sq feet to 4,000 sq feet from the heart of the Lower East Side to Chelsea only steps from the High Line to Museum Mile to the Financial District. Christine Carrier Arts offers you full service if you choose to stay the extra time to show your work to more people.

Relationships are important to us here at Christine Carrier Arts. We want to give you a customized and unique business plan created in response to your objectives, needs, and resources. Please contact us with any questions you may have about our discreet services.

Christine Carrier Arts is an art world concierge management company with experience producing Art Fairs and Pop Up events in NYC and Miami, as well as consulting with galleries on market strategies to increase their visibility and brand recognition.
